bringing buildings to life, for life

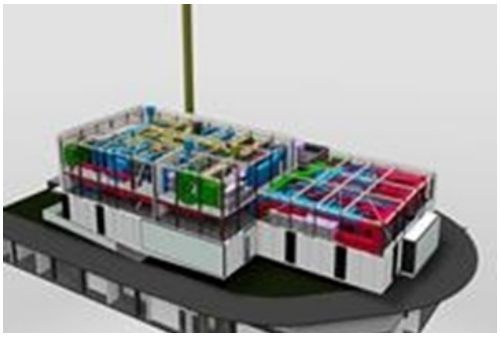

UZ Gasthuisberg Leuven - Nuclear Medicine

On the site of Gasthuisberg, university hospital UZ Leuven, the production laboratories for nuclear medicine are being renovated and extended.

The programme contains laboratories for commercial production from FDG and conventional radiopharmacy with his enclosed administrative and technical spaces. The production rooms are cleanrooms classified following the EU GMP (Good Manufacturing Practice) Annex I. In elaborating this project there is a great attention for radioprotection and the minimalizing of discharge to the outdoor environment.
