ingenium

bringing buildings to life, for life

Asse Cultural Centre

For the new premises of the Asse Cultural Centre, Ingenium designed the installations for HVAC, electrical circuitry, sanitary facilities, fire fighting, lifts and stagecraft.

Newly built Cultural Centre at Asse, floor area2. This cultural centre will offer a polyvalent hall with stage, stage tower and telescopic spectator stand; a foyer that can be separated from the hall by mobile wall sections; offices and loggias; and one library.

Ingenium designed the technical systems for HVAC (heating and cooling), electrical circuitry (high voltage, lighting, stage lighting, and basic low-voltage equipment), sanitary facilities and fire fighting, lifts (including scissors lift for the orchestra pit and technical stage equipment (fire screen between hall and stage tower, props, sound and light systems…). The project was split in two implementation stages: library and cultural centre.
