

Flemish government - Consultancy maintenance, condition assessment and energy audits

Ingenium performs framework agreement consulting on behalf of the Agency Facilities Management.

This framework agreement includes several assignments:

- Preparation of maintenance contracts for technical maintenance and supervision of the competition.
- Follow-up of the performance of the maintenance company and support in the follow-up of a maintenance contract.
- Preparation and evaluation of proposals for improvement.
- Architectural and/or technical audits (NEN2767).
- Support with prospecting.
- Delivery of maintenance contracts.
- Energy audits.
- Technical control audits.
- Potential scans.
- Measurement campaigns.
