

TWO FIRST Q PROJECTS ARE FINALISTS IN THE 2019 MIPIM AWARDS

19 February 2019

First Q is opting to two 2019 Mipim project awards, as our members have been responsible for the engineering design of both of them:

In the Healthcare development category, First Q Spain (JG Ingenieros) participated in the project: **Sant Pau Hospital Research Center** (Barcelona), designed by Pich Aguilera 2BMFG architects.

In the Best Shopping center category, First Q Italy (Manens-Tifs) was responsible of the engineering design for the **Citylife shopping district** in Milan, working with Zaha Hadid architects.

Please vote for our projects if you are coming to MIPIM!

Ingenium is a member of First Q.

FIRST Q Network is a European Mechanical & Electrical Consultancy Services network with members from 12 different European countries with a total workforce of over 2,300 people and a combined turnover of over €200 million.

The aim of FIRST Q Network is to share knowledge, expertise and resources in the mechanical and electrical consultancy field across Europe.
